

Abteilung "Experimentelle und klinische Neuroimmunologie"

Journalbeiträge

1. Dennehy KM, Elias F, Na SY, Fischer KD, Hünig T, Lühder F (2007) Mitogenic CD28 Signals Require the Exchange Factor Vav1 to Enhance TCR Signaling at the SLP-76-Vav-Itk Signalosome. *J IMMUNOL*, 178(3): 1363-71.
2. Kruse N, Cetin S, Chan A, Gold R, Lühder F (2007) Differential expression of BDNF mRNA splice variants in mouse brain and immune cells. *J NEUROIMMUNOL*, 182(1-2): 13-21.
3. Lühder F, Gold R (2007) Many roads lead to Rome: heterogeneity among encephalitogenic T cell clones. *J NEUROIMMUNOL*, 192(1-2): 1-2.
4. Lünemann JD, Schmidt J, Schmid D, Barthel K, Wrede A, Dalakas MC, Münz C (2007) Beta-amyloid is a substrate of autophagy in sporadic inclusion body myositis. *ANN NEUROL*, 61(5): 476-83.
5. van den Brandt J, Lühder F, McPherson KG, de Graaf KL, Tischner D, Wiehr S, Herrmann T, Weissert R, Gold R, Reichardt HM (2007) Enhanced glucocorticoid receptor signaling in T cells impacts thymocyte apoptosis and adaptive immune responses. *AM J PATHOL*, 170(3): 1041-53.
