

### Journalbeiträge

1. Grange JM, Krone B, Kölmel KF, Mastrangelo G (2009) Can prior vaccinations against certain infections confer protection against developing melanoma? *MED J AUSTRALIA*, 191(9): 478-9.
2. Grange JM, Krone B, Stanford JL (2009) Immunotherapy for malignant melanoma--tracing Ariadne's thread through the labyrinth. *Eur J Cancer (Internet-Ausgabe)*, 45: 2266-73.
3. Habjan M, Penski N, Wagner V, Spiegel M, Overby AK, Kochs G, Huiskonen JT, Weber F (2009) Efficient production of Rift Valley fever virus-like particles: The antiviral protein MxA can inhibit primary transcription of bunyaviruses. *VIROLOGY*, 385(2): 400-8.
4. Islam KMD, Dilcher M, Thurow C, Vock C, Krimmelbein IK, Tietze LF, Gonzalez V, Zhao H, Gatz C (2009) Directed evolution of estrogen receptor proteins with altered ligand-binding specificities. *Protein Eng Des Sel (Internet-Ausgabe)*, 22(1): 45-52.
5. Krähling V, Stein DA, Spiegel M, Weber F, Mühlberger E (2009) Severe acute respiratory syndrome coronavirus triggers apoptosis via protein kinase R but is resistant to its antiviral activity. *J Virol (Internet-Ausgabe)*, 83(5): 2298-309.
6. Krone B, Oeffner F, Grange J (2009) Is the risk of multiple sclerosis related to the 'biography' of the immune system? *J NEUROL*, 256: 1052-60.
7. Legler TJ, Liu Z, Heermann KH, Hempel M, Gutensohn K, Kiesewetter H, Pruss A (2009) Specific magnetic bead-based capture of free fetal DNA from maternal plasma. *TRANSFUS APHER SCI*, 40(3): 153-7.
8. Lugert R, Reichard U, Hufert FT, Gross U (2009) Comparison between pp65 antigenemia assay and quantitative real-time polymerase chain reaction for detection of active cytomegalovirus infection in routine diagnostics. *DIAGN MICR INFEC DIS*, 65(2): 192-5.
9. Mastrangelo G, Krone B, Fadda E, Buja A, Grange JM, Rausa G, de Vries E, Koelmel KF (2009) Does yellow fever 17D vaccine protect against melanoma? *VACCINE*, 27(4): 588-91.
10. Pairan A, Bruss V (2009) Functional surfaces of the hepatitis B virus capsid. *J Virol (Internet-Ausgabe)*, 83(22): 11616-23.
11. Weidmann M, Hufert F, Elschner M, Silman N, Mirazimi A, de Girón FM, Butaye P (2009) Networking for BSL-3/4 laboratory scientist training. *Nat Rev Microbiol (Internet-Ausgabe)*, 7(10): 756.

### Medizinische Dissertationen

1. Bartnick T, Dr. med., Rekombinante Expression von Kapsiden (virus-like particles; VLPs) des Hoch-Risiko-Typs humaner Papillomviren HPV 31 in stabil transfizierten Insektenzellen. Dissertation Universität Göttingen 2009.
